

SSRC Membership – Pay Monthly ‘Terms & Conditions’

Annual Membership (paid monthly)

The monthly membership fee you pay will depend on the type of annual membership you choose.

With this payment option, you commit to be a member, and to paying the monthly membership fee, for at least 12 full calendar months and pay the monthly membership fee for that period.

Under this payment option, during your 12-month commitment period you will not be able to downgrade to a lower level of membership, and you will not be able to cancel your membership during this period.

Around the middle of the final month of your current commitment period, you will receive a membership renewal email. Unless you cancel your membership by the end of that month then your membership will be automatically renewed for another 12 calendar months. Any increase in membership fees will be outlined at this stage.

Your monthly membership fee will be taken in advance each month by your stored debit/credit card.

The debit/credit that you set up to pay monthly will be stored on the servers of our payment solutions suppliers ‘Pay360/Access Paysuite’ and not servers at WCGT/SSRC or Globus Data (Booking system supplier).

No member of the WCGT Staff, SSRC Committee or the staff of Globus Data has any access or is able to view your debit/credit card data.

We may, entirely at our discretion, accept other payment methods to start, restart, transfer or upgrade your membership.

Failing to pay

If there is not enough money available in your account:

We will ask you to pay by cash, debit card or credit card. If, after the second month we have contacted you, you still owe us the payment, we will cancel your membership from the end of that month.

While you owe us payments you will not be allowed to use the squash courts and facilities. Once your payments are up to date you will then be allowed to use the squash courts. You will still have to pay all monthly membership fees for the duration of the commitment period you signed up to.

We may appoint a debt collection agency to collect any payments you owe us, and you may have to pay any costs associated with this, including legal and court costs and interest.
